3) Before the proposal of the Municipality can be sanctioned, it is necessary to ascertain roughly at least the total cost necessary for completing the construction of the market. A Sum of Rs 75000 is required as deposit for the frontage of the market to be designed by Mr Fuhrberg. The proposal also includes for the construction of the interior of the market amount to Rs 1,65000 These two items also come up to nearly 2½ lacs which is the amount originally fixed for this work But this does not include the amount spent on the acquisition of properties, and in view of the fluctuating rates, it is difficult to say whether the construction will be completed within the estimated amount It appears therefore desirable to have complete proposals before sanction is accorded to the present Estimate

2 At the rates entered by the Municipality the total amounts to Rs 1,65,000. The rates however are too low compared with rates prevailing at present in Bangalore. Calculated according to the latter, the estimate will go up to Rs 2,39,000 (vide separate abstract prepared and enclosed). The President may be asked if work can be carried out by the Municipality at the rates provided in the estimate submitted by him.

3 To keep down the cost for the present I would suggest that the following items of work may not be undertaken now -

1.	Non-Vegetarian market.	Rs 25,000
2.	Some items under miscellaneous	Rs 5,000
3.	Wings of vegetable stalls	Rs 7,000
4.	Evening Bazaars	Rs 2,000

The President,

Bangalore City Municipal Council

Sir,

With reference to your letter No 566/O.I. dated 22nd/26th March 1918 soliciting sanction to an estimate for constructing the interior stalls of the new general market, Bangalore City, I am directed to state that the Chief Engineer of Mysore, to whom the estimates had been sent for scrutiny, is of opinion that according to the present prevailing rates in Bangalore the estimate will go up to Rs. 2,39,000/- as per separate abstract herewith forwarded. The Chief Engineer also suggests that with a view to keep down the cost for the present the marginally noted items of work may not be undertaken now.

1. Non Vegetarian market.	Rs 25,000
2. Some items under miscellaneous	5,000
3. Wings of vegetable stalls.	7,000
4. Evening Bazare	2,000
Total. ..	39,000

I am directed to enquire whether (1) the work can be carried out at rates provided in the estimate submitted by you or (2) in case the ~~provision~~ revision proposed by the Chief Engineer has to be adopted, the amount will be within the provision made for the whole work in Government Order No 6317-20/M1 87-17-32 dated 9th May 1918, ~~and (2)~~ (2) in case the ampunt of the estimate so revised exceeds the provision for the whole work, it may be explained how

C.W. 7/6

how the Municipal Council proposes to ~~make the work in question for completion~~ find the extra funds.

~~it is~~ ordered. Very early action is necessary as that work may be started without further delay.

Sir,

With reference to your letter No 2676/M1 87-7-49 dated the 17th August 1918, forwarding an abstract estimate for Rs2,39,000/- for constructing the interior stalls of the New General Market as revised by the Chief Engineer, with suggestions as to how the estimate can be reduced, I have the honor to state that the City Improvement Committee and the Municipal Council do not think it advisible to omit the non-vegetarian section of the Market, but that certain other portions of the market which may not be immediately required may be omitted for the present. The question was carefully considered by the City Improvement Committee on 7-10-1918 and they decided to omit the portions shown colored yellow in the accompanying blue print. A copy of the Resolution is enclosed for information

2 Regarding the points referred to in para 2 of your letter, I beg to state that the rates provided in the original estimate submitted by me are found to be too low at present while those adopted in the Chief Engineer's estimate are the working rates I am therefore of opinion that the initial cost of the scheme can be kept within Rs 4 5 lakhs as sanctioned in Government Order No 6317-20/M1 87-17-32 dated 9th May 1918 only by reducing the estimate of the interior stalls to Rs 1,56,000/-. It will take some considerable time for the trade in the New Market to develop to the fullest extent so that the reduced provision of stalls as now decided upon - (which would still be considerably more than the provision in the existing market) would seem to be adequate.

3 I would request that you may be so good as to obtain the early
